

Delivering full-featured job searches for on-the-go talent.

You've gone to great lengths to source great talent, so don't let anything slow candidates down when they're ready to apply. A Jobvite Mobile Career Website helps prepare your company to accept applicants from any source, at any time, from anywhere, with any device.

Simple, functional user experience

Give job seekers a fast and easy way to stay on top of the job hunt using a mobile device.

- No more zooming in and out just to read job descriptions or click on links. A Jobvite-powered mobile career website provides applicants with menus, images, and text blocks that are designed for mobile viewing.
- Give candidates an easy way to upload resumes, attach social profiles, and submit applications—all with a few taps of the finger.
- Allow prospects to send themselves an email reminder to apply for a certain job later.

Seamless and complete integration

Streamline your applicant tracking, sourcing, and social recruiting processes by using a single platform to oversee both desktop and mobile career site functionality.

- Jobvite uses frictionless technology that passes profiles and resumes from applicants' mobile devices directly to Jobvite Hire—without missing a beat.
- Expand your sourcing capabilities by enabling job seekers to share jobs via social networks on their mobile devices.

Metrics that matter

Understand how your mobile site fits in with your entire hiring strategy. Jobvite allows you to track the success of your mobile site and to understand where you should focus your recruiting efforts.

- Track mobile traffic to find out more information about people interested in working for your organization.
- Keep up with engagement data to understand who's interacting with your mobile site and how they respond.
