

Engage Hiring Managers Where they Live—On Mobile—and Increase Hiring Velocity

Jobvite Mobile Hiring Team App: Free with Jobvite Hire, the Leading ATS

According to Jobvite’s Recruiter Nation Survey, 43% of recruiters say that hiring managers take too long to review resumes and 56% report that hiring managers hinder their ability to advance candidates through the hiring stages. These delays and bottlenecks can result in losing out on top-notch talent.

The Jobvite Mobile Hiring Team App reduces this friction by making critical hiring manager tasks easy to complete while on the go. It also provides a productive space where recruiters, hiring managers, interviewers, and employees can work together on interview days and when they are providing candidate feedback. This app is not a replica of the desktop experience. Instead, it’s a streamlined, easy-to-use app that only focuses on the most critical tasks and makes them simple to complete.

Accelerate Recruiting Velocity

- Screen new applicants for each of your open positions
- Review requisitions, candidate profiles, and resumes
- Submit candidate evaluations on the go
- Approve or reject candidates right away or opt to send delayed rejection notices
- Advance candidates to the next stage of your workflow

Jobvite’s mobile piece was a huge draw from the beginning -- other ATS’ weren’t a true mobile solution in all cases. The ability to share a job posting via social media while auto-tracking the referral helps us not only find quality candidates, but seamlessly track where they are coming from.
