

Set Your New Hires Up for Success From the Start

Jobvite Onboard: A Seamless, Integrated Onboarding Solution

Congratulations! You've successfully recruited a new employee. You put a lot of time and effort into creating a world-class candidate experience—but unfortunately a signed offer is no longer the finish line. Even after a candidate has signed, they can still decide to not join your company before they start or in the first 90 days –and then you're back to square one, recruiting for a replacement. Jobvite Onboard can help you easily manage tasks and forms and showcase your company's unique brand and culture so that your new hire can transition smoothly into a productive and happy team member.

Ensure New Hires Feel Welcomed and Prepared For Their Role

- Make new hires feel welcomed with a branded engaging new hire portal and inspiring messages from the leadership team
- Get new hires up to speed and improve their time to productivity with a checklist of orientation tasks with due dates and reminders that let them track progress along the way
- Complete tasks anywhere and anytime with a mobile optimized new hire portal. Even better, the mobile and desktop experiences are synced in real time enabling new hires to pick up tasks where they left off
- Allow new hires to communicate with appropriate staff with questions, right from inside the portal

Build a Transparent, Efficient, and Flexible Onboarding Process

- A centralized location for recruiters, HR professionals, hiring managers, IT and facilities personnel, and new hires to coordinate, communicate, and complete onboarding activities with ease
- Tailor the onboarding experience by associating pre-defined workflows for new hires based on department, position, location etc. (eg: strategic focus for executives, fun experience for interns) and automate tasks such as assigning desk computer, badge etc.
- Receive notifications on overdue tasks to ensure on-time completion
- Analyze your performance with reports that show you the impact of your onboarding efforts such as time-to-onboard, completion rate and more

Promote a Consistent and Compliant Onboarding Experience

- Bring a structured, consistent onboarding experience for all new employees with streamlined onboarding workflows that ensure all new hires have relevant documents completed before their first day
- Built with enterprise-grade security features that utilize best-of-breed monitoring, encryption, and data privacy technologies so you can rest assured that your employee information is safe and secure
- Access to a library of ready-to-use standard HR and government agency compliance forms that you can deploy into relevant workflows
- Establish a paperless process where information is completed digitally and error-free with our intuitive form guide that helps new hires complete forms correctly

The ability to automate time consuming tasks alone has been an absolute life saver," says Ryder. "Last week we did 40 offers in one week -- thus 40 rounds of onboarding and background checks. If this had happened last summer, without the capabilities within Jobvite that we have now, we would have failed. As we continue to scale, the needs of our recruiting team will only grow, so it's vital that we are able to be efficient whilst still hiring the right people to support our mission."

About Jobvite

Jobvite is leading the next wave of talent acquisition innovation with a candidate-centric recruiting model that helps companies engage candidates with meaningful experiences at the right time, in the right way, from first look to first day. The Jobvite Platform infuses automation and intelligence into today's expanded recruiting cycle to increase the speed, quality, and cost-effectiveness of talent acquisition. Focused exclusively on recruiting software since 2006 and headquartered in Silicon Valley, Jobvite serves thousands of customers including Ingram Micro, Schneider Electric, Premise Health, Zappos.com, and Blizzard Entertainment. Jobvite continues to empower companies to provide an even richer hiring experience with its recent acquisitions of Talemetry, RolePoint and Canvas – enabling hiring teams to source, engage, hire, onboard, and retain top talent with one end-to-end platform.
