

Harness the Collective Talent Network of Your Employees

Jobvite Refer: Empower Employees To Promote Open Jobs

Referrals are easier, faster, and cheaper to source and hire than other types of candidates—and research shows they perform three times better over their first three years on the job. Jobvite Refer puts easy-to-use social sourcing and referral tools in the hands of your employees to help them recruit people in their extended networks.

Activate An Army of Recruiters

- Make it easy for employees to share open job opportunities with their social networks.
- Empower employees send Jobvites, match friends to open requisitions, and schedule automatic posts about current openings
- Automatically import employee social referrals directly to Jobvite Hire when they apply for a job

Stronger Talent, Broader Reach

- Target more potential candidates of a higher caliber, using fewer resources.
- Strengthen your company's employer brand when employees recommend open job to their friends.

Success You Can Measure and Reward

- Track social referrals back to their original source so you know who sent them and how they found you.
- Use dashboard analytics and reporting to check into your referral program's progress.
- See which employees refer the most candidates and use the analysis to reward top referrers, building excitement throughout the company and incentivizing employees to keep candidates coming through the door.

Our employees proactively go into the portal to see which jobs are available and then post them to their different networks—they can really have fun and get creative with it. We looked at other ATS platforms, but nothing allowed us to get the word out there on social like Jobvite does.”
